

HETA Asset Resolution d.o.o.

## Getting to us

Our headquarters can be found in the Rotonda building at Dunajska cesta 167 in Ljubljana. Every visitor arriving in their own motor vehicle can park on the 1st underground level of the underground parking. The entry ramp into the parking garage can be reached from the service road above the Northern Ring Road when arriving from Slovenčeva cesta toward Dunajska cesta.

On the inclined portion of the entry ramp on the driver's side, there is the parking ticket machine. After obtaining a parking ticket, the barrier and lifting gate at the entrance into the 1st underground level of the underground parking will open.

Right after entering the 1st underground level of the underground parking, visitors can park their vehicles on the left and right sides. The parking bays are marked with "Obiskovalci/Visitors".

To find your way around the garage more easily, follow the HETA signs taking you to the lifts at the A entrance. Register at the front desk on the ground level of the building stating the person you are scheduled to meet. The receptionist will then point you to the right floor and office.

After the meeting, do not forget to submit your parking ticket to be signed. At the front desk, the parking ticket will be confirmed for free parking.

Leaving the garage, be careful when passing the exit ramp, barrier and lifting gate, as well as drive with an appropriate speed. Insert the parking ticket into the parking machine on the driver's side of the exit ramp.
